

iLs Home Program

The iLs Focus System is a natural, medication-free tool for improving brain function. It is used by all ages and skill levels; in fact, it's used in some of the top clinics in the world.

Now parents can implement an iLs Focus System at home with support from a personal coach via phone and email.

It's all about results.

■
Customized programs for learning difficulties, developmental challenges, autism and performance optimization

■
Primary areas of efficacy:
attention, processing and behavior

■
Research supported

■
FUN for the entire family

“My son – last night, in about an hour – wrote a whole five paragraph essay. He has never pumped out this much work at one sitting, let alone without medications in his body. Many thanks, iLs!”

—RMG

“When our son was diagnosed with autism, we were crushed. This program has been nothing short of miraculous for our family. It has returned our son to us and given him the ability to achieve his full human potential.”—S.R. Danton

How do I get started?

- Call us for more information: 303.741.4544
- \$230/month (includes equipment and coaching). You can rent as long as needed, and after 10 months the equipment is yours to keep.
- Multiple programs included. Average program length: 4 months.
- Hassle free: No lengthy applications, paperwork or credit check.

Process

If you are working with an iLs provider, call us with their Home Program ID, or we can help you find a provider or iLs Coach. Your coach will walk you through the use of the equipment and be there for you (by phone and/or email) when you have questions.

Charges are monthly. When your program(s) is completed, you may return the equipment or purchase it. (The minimum period is one month. All rental payments will be applied to your purchase.)
